Features

1. Infinity Mirror RGB design delivers a mesmerizing look and feel to your gaming setup.
2. Compatible with all Intel form factors up to ATX12V Ver.2.52.
3. Built-in APFC providing higher voltage stabilization and lower power consumption (Active Power Factor Correction rate > 0.9).
4. Built-in 105°C Japanese main capacitors provides low ripples and higher durability for PSU and all PC systems.
5. Used DC-to-DC conversion circuit for higher efficiency and tight voltage regulation even under heavy cross-loading conditions.
6. Equipped with 12cm high-pressure fan with optimized thermal fan speed control. Fan speed from 900 RPM to 1800 RPM allows adjusting from silent operation to high cooling productivity.
7. Black, flat cables allow for more convenient cable management and better airflow.
8. OVP, UVP OPP, SCP, OCP, Input Surge & Inrush Protection.
9. Fully EMC Compliant
10. Compliant with ErP 2014 for high energy efficiency
11. ROHS (Restriction of Hazardous Substances) certified
